Education and Program Execution

Wendy Cayias

E-Learning Project Specialist

P: (801) 486-0600

E: WendyC1@NACVA.com

Wendy Cayias began her multi-faceted position with NACVA® and the CTI® in February 2001. She has extensive experience in logistics management and project coordination. After 16 years of “behind the scenes” logistics, Wendy transitioned into a fast growing role within the company and is now the Online Learning Coordinator. Online learning is an optimum component that brings presenters together with members to help them grow in the valuation and litigation arena and thrive in their practices. Wendy helps manage and coordinate the online education programs offered by NACVA and the CTI and collaborates with the webinar administrator, education team, and SMEs who ensure NACVA’s webinar programs are the premier educational experience. This is especially true for the expanding “live broadcast” events that take place across the country. Wendy is enthusiastic about promoting cutting edge learning opportunities for our members. Outside of work she loves to spend time with her children and grandsons and is involved with various charities, including YWCA, Road Home, Canines with a Cause, and the Humane Society.
